# General Notes on HW

- Don't just copy the directions from the handout
  - Yes, some commands and directions are simple and hard to restate. But not everything in your wording should be directly from the handout.
- Best assignments turned in:
  - Good mix of instructions, personal notes, and screenshots
- Write in the first person.
  - Make it your experience

# Assignment

- HW2 assigned
- For Monday
  - Complete the Python (version 2.7) tutorial at <https://docs.python.org/2.7/tutorial/index.html>
  - Even proficient Python programmers will learn something
- For Wed
  - HTAOE: Ch. 2 81-114

# Let's get to work!

- See “E05 Exploring-programs-notes” in Google Docs handouts->exercises  
Assignment Project Exam Help
- Use “Tracking Progress 1/31/2018”, in  
“handouts->in class”, to indicate when you’ve reached a gate.
